DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on October 4, 2005 has been entered.
2. After a thorough search and examination of the present application, in light of the prior art made of record, and Applicant's response of October 4, 2005, Claims 1 and 3-4 are allowed. Also please note the Drawing's replacement sheet filed on December 19, 2003 is approved by the Examiner.
3. The Applicant's Information Disclosure Statement, filed on October 4, 2005 has been signed and attached.

Reason for Allowable

4. The following is an examiner's statement of reasons for allowance:

In the Examiner's Office Action for Final Rejection of April 4, 2005, 35 U.S.C. 35 U.S.C. § 103, rejections was primarily based on the reference, Reisman: "METHOD AND SYSTEM FOR SELECTING A PERSONALIZED SET OF INFORMATION CHANNELS", U.S. Patent 6,769,009, July 27, 2004, (hereafter "Reisman"), and in view of Tripp et al.: "SENDING TO A CENTRAL INDEXING SITE META DATA OR

SIGNATURES FROM OBJECTS ON A COMPUTER NETWORK", Tripp et al., U.S. Patent 6,516,337, February 4, 2003, (hereafter "Tripp").

In the Remarks filed on October 4, 2005, the Applicants submitted that the cited reference, even if proper, did not concede or render the claimed embodiment of the invention obvious. The Applicants further specifically pointed out that neither the Reisman nor the Tripp reference provides the combined teaching of assembling data of search result, reverse lookup and value-added process into staging database for further to be disseminated to the users of the system.

After further review of prior art search results, Applicant's most currently amended claims, and consideration of the above remarks, the Examiner is convinced that the Applicants arguments are valid and the prior art made of record does not teach the above subject matter as disclosed in the independent claim 1.

An update search for the prior arts on EAST database has been recently conducted to further extend and update the scope the searches conducted on domains (EAST, NPL-ACM, Google, NPL-IEEE, Oracle, Sun Micro, etc.). The prior arts searched and investigated in domains (EAST, NPL-ACM, Google, NPL-IEEE, Oracle, Sun Micro, etc) do not fairly teach or suggest the subject matter as described.

The dependent Claims 3 and 4, depending claim 1 also distinct from the prior art for the same reason.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
